BORROWING PROCEDURES AND OPERATING GUIDELINES

Cost

The only cost to the borrowing patron/organization is return postage; replacement cost if the video is lost in the return mail; and any costs incurred as a result of extensive damage to materials. (See Returning Materials and Damaged or Lost Materials below.) The replacement cost of the item is typed on the back of the case. Insuring the video when mailing back is the prerogative of the patron.

Copyright Agreement

U.S. copyright laws apply to Information and Resource Center videos. **By requesting the loan of materials, each patron agrees to abide by federal law and will not duplicate all or part of Information and Resource Center videos.** When using videos over the University ITV system, individual authorization must be made in advance with the video producer. Please allow enough time to make these arrangements.

Scheduling

Requests may be made in writing, by telephone or email. Requests should be made as soon as possible to assure availability of specific titles. Written requests need to include title and show date(s), plus alternate titles and show dates. Please schedule at least five business days prior to first show date to allow time to receive the materials through the mail.

Show Dates

Videos are scheduled for specific show dates. Due to the demand for materials and the mailing time involved, a video is scheduled for no more than 3 consecutive days. However, exceptions to this policy can be made when necessary.

Changing or Extending Show Dates

If it becomes necessary to change or extend a show date, call the Information and Resource Center (IRC) immediately. If it is at all possible, based on bookings for the title involved, arrangements will be made to change or extend the show date.

Confirming Show Dates

A confirmation of booking will be sent to confirm each request within 2 days of the booking. The confirmation indicates the program title, show date, date it will be mailed from or picked up at the IRC, and date it is due back in the IRC. Please read it over carefully. When the video arrives, please read the mailing card, and again familiarize yourself with the scheduled show date(s) and the due date.

Receiving Materials

Each video is mailed library rate from the IRC at least four mail days prior to the first scheduled show date. It should arrive the day before the show date.

Returning Materials

The due date for materials sent through the mail is four mail days after the last scheduled show date. The due date is indicated on both the confirmation of booking and the mail card. **To return, turn over the mail card and fill out the return address;** the card is already addressed to the IRC. In order to insure that the video is received in the IRC by the due date, **it needs to be mailed the day after the last scheduled show date.** It can be mailed library rate through the U.S. Postal Service or by United Parcel Service. For those who wish to purchase insurance, the value is indicated on the back of the case.

Overdue Policy

Resource Center videos are very heavily used, and a late return often causes the cancellation of another patrons' scheduled program. Therefore, it has become necessary for the IRC to temporarily suspend services to patrons who have more than four overdue videos in a four-month period. **All video loans to these patrons will be suspended for the next two months. An item is overdue if it does not arrive back in the IRC on or before the due date.** Videos are checked in daily, and overdue records are maintained by patron name.

Damaged or Lost Materials

The replacement cost for a lost or damaged video, due to negligence, will be charged to the patron.

Video Showing

If there is a problem showing a videocassette: check the connections between the VCR and TV, make sure the cassette has been rewound, and check the tracking. If problems persist, note on the rating form when returning the videocassette. Please rewind the cassette after each use.

Video Care

Videos should be kept under cool and dry conditions when not in use. Please let the video reach normal room temperature before attempting to play. Removing it from the mailing case will speed up this process. **Videos will be ruined if stored in an unventilated car during the summertime.**

VCRs

Videocassette recorders need to be in top condition. If used often, they should be cleaned/inspected at least once a year to minimize possible damage to videos.

Broken Videos

If a video breaks or malfunctions during use, note on the rating form when returning. You will not be billed for damaged/broken videos unless: 1. They are not returned to us or 2. There is obvious negligence in handling of the tape.

ABUSED BOYS, WOUNDED MEN

Grade Level: Adult

Details: 141 min. (2 tapes), 2001, Hazelden

Synopsis: While society has enormous sympathy for abused children, the judgment for these children is less benevolent should they become adult offenders. Earnie Larsen interviews adult inmates to examine the role that childhood abuse played in their lives. Designed for use in community corrections and institutional settings, this six-week curriculum will help adult offenders identify instances of early abuse, recognize how it has impacted their lives, and learn how to live a productive life in spite of it. Contains manual.

ADDICTED

Grade Level: 9-12, Adult

Details: 59 min., 1997, NCADI

Synopsis: This video, hosted by Linda Ellerbe, uncovers the faces of addiction amidst facts and figures about disease, violence and death caused by substance abuse. The faces presented are of all ages, races, and sexes, and are poor and rich, uneducated and schooled. They all have in common a past need for heroin, cocaine or crack, alcohol or nicotine, and each has a story of recovery.

ADDICTED (48 HOURS)

Grade Level: Adult

Details: 50 min., 2001, CBS Video

Synopsis: This 48 Hours presentation states that more than nine million Americans abuse prescription medication. The DEA says OxyContin abuse has grown faster than abuse of any other prescription medication. This report features a 22-year-old OxyContin abuser with a \$300-a-day-addiction that started in 1997. Struggling to kick the habit, with the support of his family, he travels from his home in Maine to California, to undergo a radical treatment called rapid detox. It also features two women; one who feels the drug is crucial to deal with her chronic pain, the other who feels that she was set up for addiction to the drug from using as prescribed.

THE ADDICTED BRAIN

Grade Level: Senior High, College, Adult

Details: 26 min., 1987, Kinetic

Synopsis: This documentary takes viewers on a tour of the world's most prolific manufacturer and user of drugs – the human brain. The biochemistry of the brain is responsible for joggers' highs, for the compulsion of some people to seek thrills, for certain kinds of obsessive-compulsive behavior, even for the drive to achieve power and dominance.

ALCOHOL ISSUES AND THE RIGHTS AND RESPONSIBILITIES OF THE MODERN UNIVERSITY

Grade Level: College, Adult, Prof

Details: 100 min., 2002, Office of Substance Abuse

Synopsis: The modern university is no longer considered a sanctuary in which students are protected from significant physical risks. High-risk drinking, hazing and other dangerous student behavior continues to generate an increasing number of lawsuits against colleges and universities. With colleges and universities routinely facing legal scrutiny, what legal images do courts have of higher education institutions? How have these images fostered or hindered student safety? Professor Lake will discuss the model of a "facilitator university" in the context of these questions and describe the evolution of modern legal concepts regarding colleges and universities. Alcohol use and abuse has played a significant role in forcing legal changes and is a major focus of Professor Lake's presentation and subsequent discussion.

ALCOHOL SCREENING AND BRIEF INTERVENTION

Grade Level: Prof

Details: 30 min., 1990, NCADI

Synopsis: This video is part of a curriculum implementation project that was developed to teach alcohol screening and brief intervention techniques to nursing students and other health professionals. It consists of a conceptual overview, an introduction to interviewing techniques and brief advice giving, filmed interviews with simulated patients, and information on how to identify and refer cases not suitable for brief interventions.

ALCOHOL: THE SUBSTANCE, THE ADDICTION, THE SOLUTION

Grade Level: Adult

Details: 44 min., 1998, Hazelden

Synopsis: Recovering alcoholics, a treatment psychologist, and a physician speak candidly about the causes and effects of alcoholism and the challenges of recovery. First we learn about the symptoms of alcoholism, such as loss of control and denial, as well as the effects of alcohol on the brain and body. Later in the video, recovering addicts speak of remarkable personal triumphs they've gained through recovery.

ALCOHOL: TRUE STORIES

Grade Level: Elem, Jr, Sr (5-12), Adult

Details: 20 min., 2002, Family Health Productions

Synopsis: This video tells how alcohol impacted the lives of four young people: Robert played soccer on an Olympic development team until one night after drinking, he crashed his dad's car into a tree and severed his leg. Megan sought treatment for alcoholism after being sexually assaulted while drunk. Two young people who avoid alcohol also tell their stories: Dana lost family members to murder. She copes with stress in healthy ways, as drinking may derail her dreams. Ilton, a talented hip-hop dancer, says his sport and a family history of alcoholism keeps him alcohol free.

ALCOHOL: WHAT YOU DON'T KNOW

Grade Level: 9-12, College, Adult

Details: 29 min., 1996, In the Mix/PBS

This video takes a realistic look at drinking. It features interviews with teens who are recovering alcoholics and a guy who paid a high price for drinking and driving: he was left partially brain damaged from an accident. Two 21-year olds test the physical effects of alcohol on the body as they drink and drive under supervision of the police and a doctor. They dispel myths about alcohol and ways to sober up. Other segments show a high school program where upperclassmen hold workshops on drinking for younger students, and what really goes on at a police sobriety checkpoint.

ALIBI VS. DENIAL (Delbert Boone)

Grade Level: Adult

Details: 42 min., 2000, GWC

Synopsis: Healthcare professionals often say that addicted clients are in "denial". If that were actually true, then the addict would have no idea that their life was falling apart due to their use of mind-altering chemicals. They would not know that they had lost a job or their lights were turned off, or their family had put them out. Sounds absurd, doesn't it? Addicts know they are in trouble and they fight desperately to give you reasons why. If you listen to them closely you'll find out that what we label as "denial" is actually an alibi. Alibis are different from denial and should be handled in a different manner. This video explores the differences between alibi and denial and how it impacts treatment outcomes.

ALONE IN THE DARK

ANGER

Grade Level: Adult

Details: 28 min., 1995, Mac Publishing

ANGER: CREATING NEW CHOICES, PT. 1 "A CLOSER LOOK"

Grade Level: Adult

Details: 35 min., 2001, FMS

Synopsis: In this program, ex-offenders and people in recovery look at the cost of anger and aggression in their lives and learn how to create new choices. Many things happen before we get angry: Thoughts, beliefs and feelings all play a crucial role. Becoming aware of what happens before we get angry and discovering that we do have time to do something different is a crucial first step in creating new choices.

ANGER: CREATING NEW CHOICES, PT.2 "CATCH IT EARLY"

Grade Level: Adult

Details: 35 min., 2001, FMS

Synopsis: Jealousy and revenge are examples of feelings which can create pictures in our minds. These are visual thoughts which drive us to actions like "checking up" on the suspected person. Allowing these actions to continue feeds our anger, and can easily lead to aggression out of control. Similarly, when anger begins to grow, adrenaline flows and major changes take place in the body. Learning how to notice these changes allows us to see what's coming before it's too late.

ANGER: CREATING NEW CHOICES, PT. 3, "PRACTICAL SKILLS"

Grade Level: Adult

Details: 36 min., 2002, FMS

Synopsis: Aggression can become a habit; we can invite anger even when we don't intend it. Our habitual body language and manner of speaking can take us down an all-too-familiar path. Learning practical skills for "keeping things cool", for being assertive instead of aggressive gives us the ability to do something different: the power to create new choices.

AS TOUGH AS NECESSARY (INST. PKG.)

Grade Level: Adult

Details: 4 @ 20 min., 1997, National Educational Service

Synopsis: This is a video workshop in which teachers and administrators can learn together how to create a school climate that helps children acquire the values and skills they need to support the educational process. The workshop provides guidance to educators who want to find a humane but firm way to teach disruptive students positive strategies for coping with frustration, disagreement, and even insults. (This pkg. contains 4 videos and guide.)

COMPULSIVE GAMBLING: THE INVISIBLE DISEASE

Grade Level: Adult

Details: 20 min., 1994, CorVision

Synopsis: For some people gambling poses a real problem. Who are these people and why does gambling dominate their lives to the exclusion of family, friends, career, sometimes even personal health and safety? Compulsive Gambling mixes historical and current clips of gambling and related activities to characterize this multi-billion dollar industry. In candid interviews with recovering gamblers, the video debunks the stereotype of gamblers as idle ne'er-do-wells. Interviews with three experts directly involved in the care of compulsive gamblers reveal both the scope of the problem and the differences even among professionals in its diagnosis.

CONFLICT RESOLUTION SERIES

Understanding how to keep your cool when emotions rise can mean the difference between an angry confrontation or a peaceful resolution. This two-part series on resolving conflict has been designed to open discussion on this issue. Each part presents two vignettes in which a confrontation is shown along with interviews with the participants who give their initial responses to the conflict. At the end of each vignette the actors rethink their roles and suggest alternatives to the confrontation.

HEALING THE ADDICTED BRAIN SERIES:

Part 1) ADDICTION: OUT OF CONTROL

Grade Level: 9-12, Adult

Details: 30 min., 1999, FMS

Synopsis: Why does addiction reach a stage that is out of control causing addicts to neglect friends and families, their children, their lives? Etched into the cells of the brain are memories of using drugs as a way to cope—memories that can trigger intense craving. A demonstration reveals how a thought can change your feelings—your chemistry. Emotional stories reveal distorted thinking and the painful neglect of loved ones and children. Yet there is reason for hope; an altered brain can become increasingly healthy when addicts learn new ways to think and to live.

Part 2) STAGES OF RECOVERY

Grade Level: 9-12, Adult

Details: 34 min., 1999, FMS

Synopsis: When a brain holds embedded memories and habits—when it is trained for years to depend on drugs—it's not likely we can recover without help from others. Emotional stories reveal the challenge of each stage: wanting to stop, deciding to stop, overcoming the barriers to asking for help and accepting help. Recovery means much more than stopping a drug of choice. Restoring the brain's natural chemistry requires effort over time—building a new way of life.

Part 3) RELAPSE AND RECOVERY

Grade Level: 9-12, Adult

Details: 36 min., 1999, FMS

Synopsis: Imagine a steel trap with a powerful spring stretched to the limit; touch the hair trigger and WHAP! That's what a relapse trigger is like, a feeling, a thought, a smell, a person, place or thing...can trigger memories of using etched into the brain—unleashing intense craving. Avoiding relapse means being prepared, creating strategies for coping with triggers. Recovery requires finding new, healthy ways to feel good, to stimulate the natural chemicals that give us a feeling of well-being. Over time, the brain begins to restore its natural balance.

LIVING A LIE: THE ALCOHOLIC FAMILY

Grade Level: Jr, Sr (7-12), Adult

Details: 30 min., 1999, Human Relations Media

Synopsis: By following a group of real children of alcoholics on an overnight retreat, this video identifies the typical roles that can emerge in an alcoholic family: the joker, the enabler, the invisible child, the overachiever, and the rebel. We hear firsthand how these roles often lead to dangerous behaviors like drug use and crime. This program strives to help viewers appreciate that despite family difficulties, children from alcoholic families can still rely upon their own resiliency and inner strength. Trained therapists and social workers who specialize in working with COAs, provide an overview of the problem of alcoholism and how it impacts the entire family unit.

Grade Level: Adult

Details: 51 min., 2002, GWC Productions

Synopsis: Filmed inside of a correctional facility, Michael Johnson addresses the struggles many offenders face when returning to their old neighborhood and friends. He discusses how the behaviors that often lead a person to addiction and criminal activity conveyed an illusion of power, control and immediate gratification. He emphasizes that in order to keep from coming back to prison it is important to accept responsibility for your actions, to develop humility and to be personally accountable for your actions and behaviors. Johnson provides successful strategies for transitioning back into the community.

MARIJUANA (DELBERT BOONE)

Grade Level: 6-12, Adult

Details: 29 min., 1997, FMS

Synopsis: Young people do not perceive the real harm in using marijuana. Delbert Boone discusses the hazards of marijuana use and addresses the misperceptions most adolescents have about marijuana. He explains how marijuana impairs judgment and skills, and can impair the user's ability to concentrate, solve problems, learn and retain new information. Taped at the Chateaugay

Correctional Facility in up-state New York.

MARIJUANA: HIDDEN HAZARDS

Grade Level: Adult

Details: 39 min., 1998, Kinetic

Synopsis: With today's 'new and improved' marijuana, users are more 'stoned', and less likely to recognize what effect the drug is having on them. This video presents the real story about what these effects are from people who have experienced them and left them back 'in the fog'. The question of detox and withdrawal is also very important because of the chemical potency of the new marijuana. Ex-users tell what they experienced and how they overcame the cravings and threat of relapse.

Grade Level: Adult
Details: 105 min., 1995, Hazelden

MOTIVATIONAL INTERVIEWING: FEEDBACK AND INFORMATION EXCHANGE

Grade Level: Prof
Details: 55 min., 1998, University of New Mexico
Synopsis: One context in which motivational interviewing has been widely practiced is the "check-up" or feedback of assessment information. This specialized application involves much more talking on the part of the therapist, in that more information is being imparted to the client. This tape looks at how the therapist takes this more active, information-giving role while remaining consistent with the spirit of motivational interviewing.

MOTIVATIONAL INTERVIEWING: HANDLING RESISTANCE

Grade Level: Prof
Details: 62 min., 1998, University of New Mexico
Synopsis: Motivational interviewing includes a set of strategies for handling and decreasing resistance. The information presented in this videotape is particularly useful during Phase I, although the methods are applicable throughout counseling. The phenomenon of "resistance" is discussed, and various strategies are explained and demonstrated.

MOTIVATIONAL INTERVIEWING: INTRODUCTION TO MOTIVATIONAL INTERVIEWING

Grade Level: Prof
Details: 41 min., 1998, University of New Mexico
Synopsis: The introductory tape is a conversational interview with Bill Miller and Steve Rollnick, conducted in the summer of 1997 by Theresa Moyers. They review the background and current directions of motivational interviewing, explore its essential theoretical and conceptual underpinnings, and discuss its five basic principles. This is by no means a comprehensive introduction to motivational interviewing. Rather, it sets the context for the following tapes in the series.

MOTIVATIONAL INTERVIEWING: MOTIVATIONAL INTERVIEWING IN THE MEDICAL SETTING

Grade Level: Prof
Details: 48 min., 1998, University of New Mexico
Synopsis: A rapidly growing application of motivational interviewing is in general health-care settings. Here it is often necessary to compress the process of counseling into a shorter period of time. This tape explores how the

spirit of motivational interviewing can be applied in busy health-care settings.

MOTIVATIONAL INTERVIEWING: PHASE I, PART 1, OPENING STRATEGIES

Grade Level: Prof

Details: 39 min., 1998, University of New Mexico

Synopsis: This video is designed to illustrate the skills involved in the opening phase of motivational interviewing. Phase I focuses on identifying and strengthening the person's intrinsic motivation for change. It begins with the first contact and continues until the transition into Phase II.

Details: 9 min., 1994, Pyramid

MOVING AHEAD: RETHINKING PREVENTION GOALS AND OUTCOMES

Grade Level: Adult

Details: 42 min., 1995, North Central Regional Laboratory

Synopsis: Youth use of alcohol, tobacco, and other drugs and youth violence are two of the most critical issues facing families, educators, and communities. We live in a time when young people confront serious choices--whether or not to experiment with alcohol, tobacco, and other drugs; to join gangs; to arm themselves at school; and to engage in sexual activity.

MOYERS ON ADDICTION: CLOSE TO HOME

1) CHANGING LIVES

Grade Level: 9-12, Adult

Details: 81 Min., 1998, Films for the Humanities

Synopsis: Changing behavior is the aim of treatment, but no single treatment program will work for all addicts. This program visits the Ridgeview Institute near Atlanta to interview recovering addicts and sit in on a group therapy session. The program also visits Project Safe, an innovative treatment program that reaches out to disadvantaged mothers who are addicts, and to their children who are at serious risk of becoming addicts.

2) THE HIGHJACKED BRAIN

Grade Level: 9-12, Adult

Details: 57 min., 1998, Films for the Humanities

Synopsis: Aided by diagnostic tools, scientists are

making dramatic discoveries about how addiction affects the brain. In this program, Moyers goes into the laboratory to follow researchers charting an "image of desire in the brain." We see images of a cocaine user's brain as the drug takes effect, and a doctor explains how these scans reveal addiction as a chronic relapsing brain disease. Moyers observes a genetic researcher as he monitors a variety of factors that may determine who is likely to develop alcoholism.

3) THE NEXT GENERATION

Grade Level: 9-12, Adult

Details: 57 min., 1998, Films for the Humanities

Synopsis: Experts are increasingly focusing on prevention efforts based on community and family. This documentary looks at two of those efforts. One works with parents addicted to heroin by teaching them how to repair the damage to family and how to raise strong, resilient children. In a second program, vigilant counselors in Dade County schools watch for kids at risk of becoming drug addicts, and offer immediate counseling for those who are already involved with drugs. Nicotine addiction is addressed by a program that provides classes designed to prevent students from smoking, and another that helps them stop if they've already begun.

4) THE POLITICS OF ADDICTION

Grade Level: 9-12, Adult

Details: 57 min., 1998, Films for the Humanities

Synopsis: The story of how our society meets the challenge of translating what scientists, doctors, counselors, and recovering addicts have learned into rational public policy is complex and sometimes contradictory. This program looks at Arizona's recent struggle to find an alternative to current policies. Proposition 200 proposed a reassessment of the status of non-violent drug addicts now serving time, and emphasized treatment over incarceration. On the Washington scene, members of Congress, doctors, and policy activists have joined in a movement with recovering people that is pushing for new public policy.

5) THE PORTRAITS OF ADDICTION

Grade Level: 9-12, Adult

Details: 57 min., 1998, Films for the Humanities

Synopsis: In this program nine recovering men and women tell their stories. This candid testimony from people who have been there leaves little doubt that addiction can happen to anyone and so can recovery.

MULTIPLE CHOICE

Grade Level: 8-12, Adult

Details: 26 min., 1996, CorVision

Synopsis: Attitudes toward kids and crime are changing, and so are the laws. Now when the law says 20 or 30 years for a crime, even teenagers are going to do the time. Kids behind bars say that the biggest mistake of their lives was leaving school, not listening to parents and teachers, and getting in with the wrong crowd. For some, the last chance to learn respect for authority and their own freedom is a Youth Development Campus (YDC). At YDC, kids get to make one of two choices still left to them behind closed doors: learn the easy way from books and teachers-or the hard way- from iron and isolation.

MY POT VIDEO

Grade Level: 6- 12

Details: 16 min., 1997, Kinetic, Inc

Synopsis: A high school student, Mike Morgan tells the audience that he is assigned to make a video about marijuana. It seems "someone" found out that he was interested in producing videos and requests he produce it for other students. (We later get hints that he is doing the project for a judge after being caught with pot at school) After an "MTV" attempt, he is required to redo it in a more comprehensive manner. His second attempt follows him around, doing interviews and learning about pot. His last interview is with an old friend of his from grammar school who has become addicted. At the end of the video Mike admits he didn't really know much about pot before and now hopes his video might help some other kids avoid problems.

THE TROUBLE WITH TOBACCO

Grade Level: 7-12, Adult Closed Captioned

Details: 11 min., 1996, United Learning, Inc.

Synopsis: As the program opens, a group of preteens goes to a deserted area to smoke cigarettes. One of the youngsters smokes because of peer pressure. Others smoke because it seems exciting and grownup. The narrator then explains that the tobacco industry spends billions of dollars every year to convince people that tobacco use is fun and glamorous. However, the reality of tobacco use is very different than what is depicted in expensive advertising campaigns. It goes on to explain the negative effects of smoking.

TRUTH ABOUT BODY IMAGE: THE TEEN FILES

Grade Level: 9-12, College

Details: 21 min., 2000, Aims Multimedia

Synopsis: This video forces the teens in the program and the viewers to confront how popular ideas of "beauty" damage teens physically and psychologically and informs teens that they don't need to conform to societal standards of beauty, and that constantly pressuring oneself to look a certain way is no way to live.

TRUTH ABOUT HATE: THE TEEN FILES

Grade Level: 6-12

Details: 32 min., 1999, Aims Multimedia

Synopsis: This program explores the origins of hate through the eyes of today's teenagers as they come face to face with their own racism, ethnic bigotry, religious hatred, and sexual discrimination. Through interactive experiences with other teens who are different from themselves, and emotional encounters with people who have been victimized or affected by hate due to family and social ties, these young people gradually learn to face the destructive reality of their prejudices.

THE TRUTH ABOUT SEX: THE TEEN FILES

Grade Level: 7-12

Details: 45 min., 1999, Kinetic

Synopsis: Does discussing sex make you feel uncomfortable? Most people agree it's easier to have sex than to talk about it. The choices you make can affect your life, and the lives of those who are close to you. A teen couple witnesses the consequences of unplanned pregnancy and the health risks involved. Hear what teens and their parents have to say about sex in a candid discussion to see what's really going on with relationships today. Four teens learn about the dangers of unsafe sex as they tour a microbiology lab and hear from a woman infected with the AIDS virus.

THE TRUTH ABOUT TEEN ALCOHOL USE 101

Grade Level: Sr (9-12)

Details: 25 min., 2001, Discover Films

Synopsis: This video uses the social norms approach to

show high school students that most of their peers do not drink. A survey at Riverfront High School produces typical results: while teens assume others drink, actually most do not. Through interviews and group discussions, we learn how surprised and relieved students are to discover their own attitudes align with those of a majority of their peers, 70% who do not drink. This gives them the confidence to be themselves by dispelling the myth that "everybody is doing it."

THE TRUTH ABOUT TOBACCO (PATRICK REYNOLDS)

Grade Level: 9-12, Adult

Details: 42 min, 2000, Aims Multimedia

Synopsis: Patrick Reynolds, grandson of tobacco magnate R.J. Reynolds, tells teens the hard facts about smoking and other tobacco use. Through satirical ads, cutting-edge advertising, and striking personal stories, Reynolds makes painfully clear the high price tobacco users pay, both physically and emotionally.

Grade Level: Adult

Details: 17 min., 2001, New View Films

Synopsis: Smoking takes a deadly toll on women and the people they love. Lung cancer already claims the lives of many more women each year than breast cancer, and deaths from lung cancer are on the rise. Women between the ages of 18 and 34 are prime targets for the tobacco industry, which spends billions of dollars every year on advertising that makes smoking cigarettes look fun, sexy and inviting. This video explores the myths about smoking and empowers women to become or stay smoke free.

WOMEN OF SUBSTANCE

Grade Level: Adult

Details: 30 min., 1994, CorVision

A WOMEN'S HEALTH: SMOKING

Grade Level: 9-12, Adult

Details: 10 min., 1995, CorVision

Synopsis: The consequences of smoking are explored in this video hosted by Rita Moreno.

Janet Sackman, a photographer's model who glamorized smoking in LIFE Magazine a generation ago, became addicted to cigarettes when an executive suggested that she would become convincing if she smoked. Today, despite her battle with throat and lung cancer, Ms. Sackman is educating children about the dangers of smoking. Almost every cigarette ad aimed at girls uses the word "slim" or "slender" and stresses the use of cigarettes for weight control. Actress Brooke Shields knows how compelling the "body images" created by advertising appear. She tells viewers that "smoking is going to get you further away from who you really are and the beauty of who you are."

Details: 9 min., 1993, Activism 2000 Project

YOUTH VOICES I

Grade Level: 6-12, Adult

Details: 26 min., 2000, Maine PBS

Synopsis: This 30-minute program documents the progress of four Maine Youth Voices groups from Carrabec, Fort Kent, Indian Island and Gorham, who are tackling the issues of underage drinking. Each group has had to address special concerns in their individual communities, but all of them have a common goal - to keep young people in Maine from using alcohol.

YOUTH VOICES II, [LIVE SHOW]

Grade Level: 6-12, Adult

Details: 60 min., 2001, Maine PBS

Synopsis: In this one-hour television special, student on-air hosts joined Maine PBS as their video documentaries were aired. Viewers called in with their questions or concerns. {see: **Maine Youth Voices 2001, Mini Documentaries**}

YOUTH VOICES II, [MINI DOCUMENTARIES]

Grade Level: 6-12, Adult

Details: 30 min., 2001, Maine PBS

Synopsis: Young people from four Maine Youth Voices groups located in Ashland, Rangeley, Surry & Cumberland County worked with Maine PBS to design their own 5-7 minute productions focusing on issues surrounding alcohol in Maine's communities. As the young people identified specific areas of concern regarding alcohol use, Maine PBS's production crews turned their tools over to the students to help them take a proactive approach in addressing their concerns.

YOUTH VOICES III

Grade Level: Jr, Sr (6-12), Adult

Details: 30 min., 2002, Maine PBS

Synopsis: High school students from the communities of Oxford Hills, Harrington, and Danforth, as well as a group of student Resident Assistants from the University of Southern Maine in Gorham, produced their own Public Service Announcements with the goal of reaching adults, particularly parents, to make them aware of the many issues surrounding underage drinking. This program is particularly appropriate for parent groups and other adults that wish to learn more about what young people think about the role adults play in contributing to underage drinking issues in Maine. Other possible target

audiences might include high school student groups, teachers and other social service professionals, college residence assistants, college students, affairs administrators, law enforcement agencies, etc.

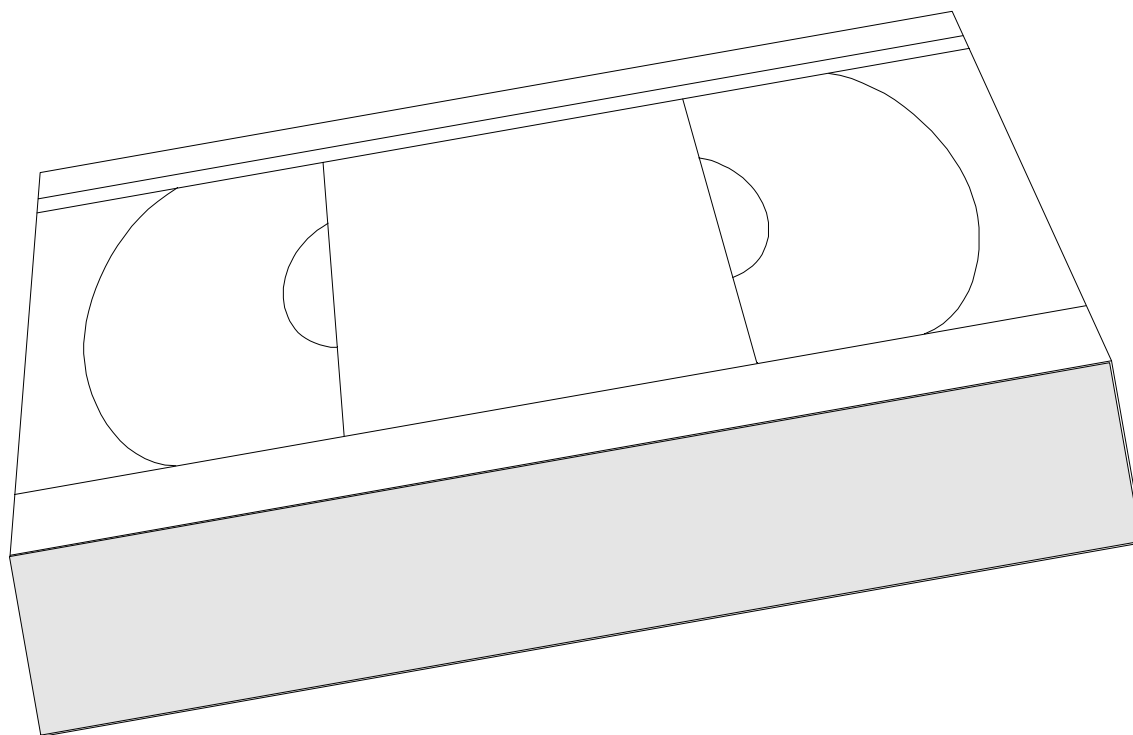

YOUTH VOICES IV

Grade Level: Jr, Sr (6-12), Adult

Details: 30 min., 2003, Maine PBS

Synopsis: Young people from the communities of Eastport, Jonesport, South Portland, and Standish from the ages of 12 to 22 produced public service announcements aimed at reaching their peers. Each group identified a message that would offer their perspective about issues relating to alcohol use and what role social norms play in underage drinking in Maine's communities. Their messages address issues such as misguided assumptions that alcohol is more popular than it is in reality, and the false belief that the majority of the youth population uses alcohol.
